Dear Mr. Kizzia,

Congratulations! Vindiction was the major purpose of the case and you got your clients that, and that is just fine! I must admit a little regret because after reading the depositions Gary sent me I was satisfied that you've have a field day with those each of whom disgraced his profession, as did JAMA.

I've been meaning to write you about something else. I'm being screwed again on publishing and in the confusion I cannot avoid because of my limitations I cannot find my copy of the edited ms of NEVER AGAIN! If you do not need the copy Gallen sent you, or of you want to keep it, I'll appreciate ~~xix~~ a copy very much.

And if you'll be kind enough to ask Gary to send me what is published in vindication I'd like not only to know that but to have it in the archive at Hood College which is getting all we have. Files and property.

I expected NEVER AGAIN! to be published by 7/93. It later was scheduled for publication this past September. Then I was promised it would be in the stores this coming ~~February~~ March. But instead it has been removed from the computer the book stores have and March books have been announced. While I have no idea that immobile as I am and working as intensively as I do I can interest anyone else in doing the ~~copy~~ book, not only would I like to have it as edited but I'd like to be able to show it should lightening strike.

Gary may be interested in knowing that I have two more books completed and being retyped by students. One addresses motive, means and opportunity as it has never been done, and entirely from the public domain.

From you silence I am inclined to believe that I have in the book something your clients may not like. If they think it is inaccurate I'll be glad to make any correction.

Sunday my supply of paperclips will be replenished. As I read those depositions Gary sent me I used them to be able to call to your attention where you could really do something to those evil people. I can remove them to the football game.

Please give Gary my best wishes. I think he may be interested in knowing that I've not had a peep from Posner or his publisher and if Gary has the reprint he'll have seen that there wasn't a thing Posner could say, except tell another irrelevant lie.

Sincerely,

Harold
